**To:** (b) (6)  
**Cc:** (b) (6)  
**Subject:** DHHS FT Bliss Site Survey (UNCLASSIFIED)  
**Date:** Friday, June 1, 2018 1:17:51 PM

---

CLASSIFICATION: UNCLASSIFIED

(b) (6),  
I will be out of the office 4-15 June. (b) will be out of the office 1-11 June. If the site visit occurs before (b) returns on 12 June, please ensure all on the email are provided with information/invitation. (b) (6) will have the lead for Master Planning Division.

(b),  
Please coordinate with DPW Team and sure POCs are in attendance to discuss:

\*utility locations (including underground): POC will be available on site, but utility info already provided (first attachment); all utilities must be metered; DHHS must set up a Utilities Sales Agreement (POC will be available to discuss)

\*environmental concerns and requirements for use for this purpose: POC will be available on site

\*land site preparation (I.e. grading, leveling): DHHS will have to perform/contract this effort; a Proprietary Approval Work Order must be submitted through the Work Order Desk by DHHS for siting and construction approval (POC will be available to discuss)

You will have to remind DHHS POC:

\*public works for utilities, maps, charts (e.g. flood plain): DHHS will have to obtain flood plain maps from FEMA

\*requirements to obtain the land usage permit(s) as required: POC for USACE Fort Worth District provided. DHHS must submit a real estate application for approval.

\*discussion on clearance of contractors and base access: From the Real Estate perspective, Real Estate permit/license will authorize work on FBTX lands; Right of Entry (ROE) will be needed if immediate access is required. DHHS must contact USACE Real Estate POC.

Thank you!

Subject: FW: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

(b) (6), I will defer to the DPW team to select preferred dates over the next three weeks for HHS to visit to conduct a survey of the land previously identified. This time around will be much more detail focused than the recent site visit. The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

We should be able to manage the majority of the coordination in one to two days, and will primarily work out of the conference room in 2027, 1AD HQs.

Please provide me your preferred dates before noon tomorrow or give me a call if DPW cannot respond that quickly. Once we lock in dates, you and I can coordinate the details of who needs to attend and what maps, charts, documents that would be appropriate to have available.

DES, we will need same degree of fidelity available for this survey to get after the clearance of contractors and access to the installation.

To the team-I guess they didn't like my recommendation to go to Goodfellow in San Antonio.

Subject: RE: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

(b) (6),

OUSD-Policy just e-mailed me from a meeting at HHS.

The following concerns the previously noted site survey:

HHS would like to get started on scheduling survey dates. At present there is only one survey team, and HHS would like to visit Ft Bliss first.

The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

HHS teams would include public works types and contractors to review/discuss the topics described above. HHS estimates an HHS survey team being about 10 personnel, and the survey should be complete in one day.

Policy respectfully requests you provide some preferred dates for us to provide to HHS so they can make an informed decision.

Policy is requesting acceptable dates over the next three weeks.

Understand it may be too short to have that info today, but soonest would be much appreciated.

As a reminder, these surveys will require coordinated DoD/HHS congressional notification. That also means we need to be careful about sharing these dates until they are firm and appropriate notifications made.

Thank you for all your assistance with this matter.

(b)

Just wanted to touch base.

We are still waiting for additional data from HHS regarding potential site survey to facilitate your decision process on setting potential dates.

OUSD believes HHS will conduct surveys regardless of current / identified need for sites.

Additionally, they have yet to issues a prioritization list, but will be surveying a few sites from other agencies next week, so that would slide an "earliest date" for FT Bliss to the right.

Word from Policy is that HHS liked FT Bliss and Goodfellow about the same, for different factors.

I will keep you apprised of any change.

(b) (6), our availability would depend on the scope of the survey and the key stakeholders from Bliss that would be required to support it. Give me a call to discuss if you like.

Subject: FT Bliss Availability for Potential Site Survey

(b) (6)

Thanks again for last week's assistance.

Separately, during a meeting today with OSD-Policy, they indicated HHS appreciation for last week's informal and initial site visit.

Policy also expressed a desire to know how soon, after the Memorial Day Weekend, FT Bliss (as well as the other potential installations from Air Force) would be able to conduct formal site visits.

We expect HHS to reveal their order of preference to policy today and could submit an RFA for the site visits any

time after.

Policy wants to lean forward with some of the initial planning partly in order to go through the process once for all three potential installations, as opposed to doing each one separately.

If possible, I'd like to forward the potential survey date(s) to policy during tomorrow's meeting (1230 EDT / 1030 MDT)

Any help would be much appreciated.

v/r
